

## **VAT Refunds in Cyprus**

### ***VAT Regulations when Buying Property in Cyprus***

Since Cyprus joined the European Union, VAT has been imposed on the sale of all new property at the rate of 15%. A rebate scheme has been introduced enabling certain categories of buyers to claim a VAT refund on certain types of properties.

### ***Do you have to pay VAT on all properties in Cyprus?***

The VAT regulations on property sales:

Sales of land are exempt from VAT although it is anticipated that value added tax will be introduced on sales from 1st August 2008, although this has not yet been confirmed. It is still not clear on what types of land VAT will be imposed and how it will be collected.

Buyers of newly built property pay VAT at the rate of 15% on the building costs (this has always been the case).

Those who are buying a home from a property developer are liable for VAT if the planning application has been made and the building permit has been issued after 1st May 2004.

Sales of resale property in Cyprus are exempt from VAT (assuming that the property has been used).

### ***There is a VAT refund scheme***

Cyprus introduced the VAT refund scheme to help lower income home buyers. This is how it works:

1. The purchased property is the sole main residence of the applicant.
2. The applicant does not own any other property in Cyprus that is used as a main residence.
3. The applicant should be at least 18 years of age and must be an EU citizen.
4. The applicant must be permanently residing in Cyprus.
5. The applicant should fill in a special form issued by the Ministry of Finance and a statement must appear in the government's Gazette that this property is a first home.

6. The application must be accompanied by a copy of the contract, a copy of the building permit (the same as the ones submitted to the Land Registry) evidence of the applicant's residence, such as copy of a phone bill, copy of a water bill, copy of the electricity bill, copy of the sewage bill and any municipality's tax bills.
7. In order to qualify, those who receive the VAT refund must keep the property for at least ten years, or return the refund.
8. Properties with a covered area greater than 250m<sup>2</sup> do not qualify for a refund. (The Cyprus government considers that those buying a larger home can afford to pay the VAT in full).
9. The VAT refund is calculated on basic area, but for every family with more than three children, there is an additional provision of 15m<sup>2</sup>/child.
10. In addition to the 130m<sup>2</sup>:
  - Up to 36m<sup>2</sup> is allowed for covered parking
  - Up to 5m<sup>2</sup> for an engine/boiler room
  - Up to 7m<sup>2</sup> for storerooms
  - Up to 40m<sup>2</sup> for covered verandasThe amount of the VAT refund will depend on the type of the property and its size, based on the 130 m<sup>2</sup> calculation.

The amounts of the grant valid from 1 January 2008 are as shown in the table below:

1. Construction of house € 10,131.13.
2. One bedroom apartment € 19,249.28.
3. Two bedroom apartment € 19,249.28.
4. Three bedroom apartment € 17,729.63.
5. Semi detached house € 15,196.87.
6. Detached house € 20,262.38.

The VAT refund is calculated by taking the area of the house/apartment, multiplied by the purchase price per m<sup>2</sup> multiplied by Value Added Tax rate of 15/115 and multiplied by the 10/15 refund rate.
